Educating, Empowering, and Coaching for success is our main goal here at Seventh Seal Group. One way we have decided to empower young people is by educating them on how to get registered to vote and ballot literacy. It's important for everyone to know who they want to vote for and what laws in their State and or County will be effected by the click of your finger. If you want to look at you ballot before you cast your vote go to <a href="https://www.usa.gov/election-office">https://www.usa.gov/election-office</a>; It's Important you know.... The ability for you to vote is your birth right, not a privilege. "YOU GOT POWER"
